Re: Full stack Security Developer

Dear Dr. Sajjad:

I am writing to express my keen interest in the Full Stack Security Developer co-op position, as advertised. As a dedicated 3rd-year Software Engineering student with a strong foundation in software engineering and a passion for cybersecurity, I am eager to bring my passion for technology and cybersecurity to your dynamic team.

Throughout my academic journey, I have acquired a strong foundation in software development and Linux environment. I am well-versed in a variety of technologies, including Python, HTML, CSS, and JavaScript. My coursework and projects have equipped me with the skills necessary to collaborate with cross-functional teams, create and maintain back-end services, and develop APIs. What excites me about this opportunity is the chance to deepen my understanding of security protocols while contributing to the development and maintenance of robust web applications.

Thank you for your consideration. I look forward to discussing my qualifications with you during an interview.

Yours truly,

Saran
