Re: Tester

Dear Mr. Ranjit:

I am writing to express my interest in the Black Box Tester position at ASETS-CA, as advertised. Currently a third-year Software Engineering student at the University of New Brunswick, I am eager to contribute my skills to a dynamic company like ASETS-CA, particularly with its innovative IDS™ Integrated design suite platform.

I possess a strong understanding of web technologies including HTML, CSS, and JavaScript. My proficiency in using version control systems such as Git, being a skilled manual tester, and understanding Software Development Methodologies positions me well for this role. My excellent communication skills in English, coupled with experience in mathematics and analytic skills, make me well-suited for the dual role of working on test cases and creating digital content.

Thank you for your consideration. I look forward to discussing my qualifications with you during an interview.

Yours truly,

Saran
